Understanding the ANIMAL KINGDOM

A highly professional multi-media, curriculum enhancement program with LIVE ANIMALS

from

jellyfish to jaguars

from

butterflies to bull elephants

*W. Perry
Conway*

The Colorado Department of Education Science Content Standard #3 states... "Students should know and understand the characteristics and structure of living things... vertebrate and invertebrate... complex to simple." This program is a true learning experience based on that Standard.

Visit Perry's web site, www.perryconway.com, and click on **Multi-Media Wildlife Programs** for additional programs and information. Presentations are adaptable for K-8 and always include LIVE ANIMALS.
